

## The Bluebird Care advantage

- > Care visits from 15 minutes upwards
- > Assistance with personal care
- > Help with house keeping
- > Full live in care service

## The Bluebird Care promise

All our carers are recruited locally and trained to maintain the high standards we demand of all our employees. Because they live locally, our staff retain the local knowledge that can be vital and is an essential part of any care provision.

Bluebird Care is a privately owned organisation. We are fully registered with the Care Commission, the body set up by the Government to regulate care provision in Scotland.

# The care you need in the home you love..

## Caring passionately about your health and welfare

Research has shown that many people who need assistance would rather stay in their own homes than go into residential care. Bluebird Care makes this possible by providing a range of care for people of all ages.

Our team has many years experience in all aspects of home care and is dedicated to offering the highest standards of quality service.

## How can we help you?

Bluebird Care is available to anyone who needs specific help with every day tasks around the home.

These tasks may include:

- > [Help getting up or going to bed](#)
- > [Preparing meals](#)
- > [Shopping](#)
- > [Washing and ironing](#)
- > [Personal Hygiene](#)
- > [Cleaning the home](#)
- > [Mobility issues](#)

The Bluebird Care service is totally flexible and designed around you and your care requirements. Giving you the freedom to carry on your life as normally as possible in the comfort of your own home.

## How does Bluebird Care work?

Firstly, a Bluebird Care advisor will visit you at home to discuss your individual needs and explain how our service can work for you.

We welcome other family members or trusted friends at this meeting to ensure nothing gets missed and all your questions get asked and answered to your satisfaction.

Once you have decided to choose Bluebird Care as your care partner, we will work with you to design an individual care package around your care needs.

Visits may be from as little as fifteen minutes, up to several visits each day or even live-in care. Because no two customers have the same needs we tailor our recommended package to your precise requirements.

Once you have agreed to the care package, you will be assigned a member of the Bluebird Care team who will be your point of contact. They will answer any questions and action any changes to your care should you need additional services at a later date.

They will introduce you to one of our fully trained and supervised carers, briefing them on your specific needs and making sure you are completely satisfied at all times with the care you are receiving.

Should you need someone in the house for much of the time, your Bluebird Care worker is trained to be self reliant, capable, helpful and unobtrusive. Part of your daily life when you need them, or giving you space you need to relax and be yourself. We never forget this is your home, not a hospital ward.

Each carer is hand picked for their passion & commitment. Their police records are checked and they are fully trained in all aspects of the role including your individual care needs and safety, plus all the pre-arranged tasks you will have identified in your personal care package.
